

Planning Application APP/19/00768 Land to the rear of, 15-27 Horndean Road, Emsworth

Thank you for your consultation. I note that to address condition 4, the archaeological mitigation condition, the applicant has submitted the written scheme of investigation (WSI) proposed for the site. I am happy to endorse this WSI to you, and I am aware that the applicant's archaeologists have carried out the field work elements of that WSI. However, a report of the results (as set out in the WSI) has yet to be submitted. On that basis It would seem to me to be premature to discharge the condition. I look forward to receiving a report of the archaeological field work in due course.

Yours sincerely

David Hopkins  
County Archaeologist
