Landscaping Scheme Schedule

Notes

1. Shrub beds to be 100% top soil.
2. Shrubs to be grouped in solid blocks of similar species (min 5 per group).
3. Plant beds to be mulched with 75 mm deep bark mulch. Mulch to be well matured with chip sizes not to exceed 50 mm.
4. Tree pits to be minimum 1 m x 1 m max depth achievable with pit back filled with quality top soil with layers consolidated every 150mm.
5. Proposed trees to be 14-16cm girth 47L container.

BED 1 (28sqm):

No of plants:	Species	Pot Size	Height in mm
30	Prunus Laurocerasus 'otto luyken' (planted to side and end of car spaces)	2	300
10	Weigela 'Abel Carriere'	3	450
10	Choisya Tenata	3	450
5	Forsythia (adj. boundary)	3	600
15	Lavendula Spica 'Hidcote'	2	300
10	Weigela florida 'Variegata'	3	450

Bed 2 (6sqm):

No of plants:	Species	Pot Size	Height in mm
7	Prunus laurocerasus 'otto luyken'	2	300
7	Lavendula Spica 'Hidcote'	2	300
7	Weigela 'Abel Carriere'	3	450
7	Hebe 'Wiri Image'	3	300
3	Pyracantha 'Orange Glow' (against wall)	3	600

Bed 3 (8sqm):

No of plants:	Species	Pot Size	Height in mm
10	Prunus laurocerasus 'otto luyken'	2	300
2	Pycantha coccinea lalandei (against wall)	3	600
10	Weigela florida 'Variegata'	3	450
10	Choisya Ternate	3	450
10	Pieris Formosa forrestii 'Wakehurst'	3	450

BED 4 (15sqm):

No of plants:	Species	Pot Size	Height in mm
1	Acer palmatum 'Dissectum Atropurpureum' (in the centre)	3	600
15	Lavendula Spica 'Hidcote'	2	300
10	Spirea x bumalda 'Anthony Waterer'	3	450
10	Hypericum 'Hidcote'	2	300
10	Hebe 'Wiri Image'	3	300
100	mixed daffodil bulbs (planted in groups around the edge)		

BED 5 (14sqm):

No of plants:	Species	Pot Size	Height in mm
2	Pycantha coccinea lalandei (against the wall)	3	600
7	Pycantha 'orange glow' (alternate against the wall)	3	600
10	Lavendula Spica 'Hidcote'	2	300
10	Choisya Ternate	3	450
10	Prunus laurocerasus 'otto luyken'	2	300
10	Potentilla fruticosa 'Veitchii'	2	450
10	Weigela 'Abel Carriere'	2	450
10	Berberis thunbergii 'atro purpurea nana'	2	300

BED 6 (9sqm):

No of plants:	Species	Pot Size	Height in mm
2	Pycantha coccinea lalandei (against the wall)	3	600
10	Prunus laurocerasus 'Otto Luyken'	2	300
10	Choisya Ternate	3	450
10	Pieris Formosa Forrestii 'Wakehurst'	3	450
10	Weigela Florida 'Variegata'	3	450
2	Buddleia 'Purple Prince' (in centre)	3	600

INDIGENOUS HEDGEROW

An indigenous hedgerow shall be planted in a double staggered row, with rows 600mm-1.0m apart and plants along them at 600mm centres. An area at least 1.6m – 2.0m wide will therefore be required for its ultimate development, if it is to be kept trimmed. This distance will obviously increase if the hedge is to be left untrimmed.

Species shall be grouped in numbers of 5, 7 or 9:

e.g: 25% Crataegus monogyna – hawthorn
 25% Prunus spinose – blackthorn
 20% Acer campestre – field maple
 20% Corylus avellane – hazel
 10% Ilex aquifolium – holly

WILD FLOWER MEADOW

The wild flower meadow is to be created with a 100% Dual Purpose wild flower seed mix obtained from Boston Seeds. The mix contains 28 wild flower species and the seeds are to be sown at 3 grammes per sq.m.

MAINTAINANCE

All landscaped areas including the wild flower meadow will be maintained by Havant Housing Association.

To control scrub and bramble development in the wild flower area , this area is to be cut twice yearly on a 2 year rotation to a minimum height of 100mm between 1st November and 31st January to provide cover for reptiles and invertebrates. All arisings are to be left in-situ for two weeks before removal to allow wildflower seeds become displaced.

After flowering in July or August a hay cut is to be taken. Plants cut back to 50mm using either scythe, petrol trimmer or tractor mower. The hay is then to be left to dry for 7 – 14 days to dry and enable seeds to be shed before hay removed from site.

A second cut is to be carried out in October each year.
