Dear Sir/Madam,

Proposal: Change of use from a holiday home for the Charing Cross Holiday Dialysis Trust to C3 dwelling house with ancillary annex (no internal alterations).

Site: APP/21/00498: - 34 Havant Road, Emsworth, PO10 7JG.

Thank you for your letter dated 24/05/2021.

Please see the attached extract from Southern Water records showing the approximate position of our existing public surface water sewer within the development site. The exact position of the public assets must be determined on site by the applicant in consultation with Southern Water before the layout of the proposed development is finalised.

Please note:

- The 300 mm public surface water sewer requires a clearance of 3 metres on either side of the gravity sewers to protect it from construction works and to allow for future access for maintenance.
- No new development or new tree planting should be carried out within 3 metres of the external edge of the public gravity sewer without consent from Southern Water.
- No new soakaway, swales, ponds, watercourses or any other surface water retaining or conveying features should be located within 5 metres of a public sewer.
- All existing infrastructure should be protected during the course of construction works.

Please refer to: southernwater.co.uk/media/3011/stand-off-distances.pdf.

We have restrictions on the proposed tree planting adjacent to Southern Water sewers, rising mains or water mains and any such proposed assets in the vicinity of existing planting. Reference should be made to Southern Water's publication "A Guide to Tree Planting near water Mains and Sewers" (southernwater.co.uk/media/3027/ds-tree-planting-guide.pdf) and the Sewerage Sector Guidance (water.org.uk/sewerage-sector-guidance-approved-documents/) with regards to any landscaping proposals and our restrictions and maintenance of tree planting adjacent to sewers, rising mains and water mains.

Furthermore, it is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

Southern Water requires a formal application for any new connection to the public foul and surface water sewer to be made by the applicant or developer.

To make an application visit: southernwater.co.uk/developing and please read our New Connections Services Charging Arrangements documents which are available on our website via the following link: southernwater.co.uk/developing-building/connection-charging-arrangements

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119).
