Name: Consultee Environmental Health (Environment Team)

Address: Public Service Plaza, Civic Centre Road, Havant PO9 2AX

Email: EHEnvironment@havant.gov.uk

On Behalf Of: Environmental Health Manager, Community Group

Comments

I have reviewed the submitted application. There does not appear to have been any related complaints regarding interference with reception of television / radio / GSM signals. It is noted that radio frequency (RF) has not been proven to be harmful - occupational studies undertaken have not identified any significant link between employees with high occupational RF exposure and any increased incidence of (e.g.) cancer. Some lab studies have shown other biological effects, but generally conclude that these are unlikely to manifest under real-world (occupational or consequential) exposure levels, due to low energy RF's used for broadcast. It is not considered that there is any justification to object on health grounds. No adverse comments.
