Subject: Environment Agency response to Planning Application APP/15/01111

Dear Planning,

Thank you for consulting the Environment Agency on the above application.

Having assessed the application with regard to the development type and location of the proposal, we can confirm that we have no bespoke comments to make.

Advice to Applicant - Pollution Prevention

The site lies in a source protection zone for drinking water supplies. All precautions must be taken to avoid discharges and spills to the ground both during and after construction. For advice on pollution prevention measures, the applicant should refer to our guidance 'PPG1 – General guide to the prevention of pollution', which is available on our website at:

<https://www.gov.uk/government/collections/pollution-prevention-guidance-ppg>

In the event of a pollution incident, all works should cease immediately and the Environment Agency should be contacted via the incident hotline 0800 807060.

Regards,

Rebecca
