Dear Madam,

Footpath to front of, Co-op, 140 Elm Grove, Hayling Island, PO11 9EH

Application to determine whether prior approval is required for a proposed 5G telecoms installation: H3G Phase 8, 18m high street pole c/w wrap-around cabinet and 3 further additional equipment cabinets.

Thank you for consulting the Highway Authority on the above planning application.

In order to ensure that the proposed 5G mast and associated cabinets does not cause a visibility obstruction for vehicles, the applicant is required to provide a diagram showing the visibility splays for Tournurbury Lane. For further information on visibility splays please see the Hampshire County Council Technical Guidance TG3 using the following link: [Microsoft Word - TG3 Technical Guidance Note - Stopping Sight Distances and Visibility Splays \(A1001001A17F05B10508J50123\)1.docx \(hants.gov.uk\)](#)

The Highway Authority have concerns with the obstructions to the footway therefore, the applicant is required to provide the footway widths of the footway once the proposed 5G mast and cabinets have been installed. The applicant should also be made aware that the existing lighting column may have to be relocated to minimise the obstruction to pedestrians which will come at an additional cost.

As such, the Highway Authority require the additional information before a formal recommendation can be made.

*Director of Economy, Transport and Environment
Stuart Jarvis BSc DipTP FCIHT MRTPI*

Yours faithfully,

Sophie Osborne
