Dear Sir,

21 Bellair Road, Havant, PO9 2RG

Proposed single storey rear and side extension, replacement front porch, loft conversion and new drop kerb to front of property.

Thank you for consulting the Highway Authority on the above planning application.

The Highway Authority have no concerns that the proposed extension and dropped kerb would result in a severe impact on the local highway network.

It is recommended to the applicant that they should be made aware that subject to any planning permission being granted by the Local Planning Authority, a subsequent agreement will need to be granted by HCC as Highway Authority to undertake the drop kerb works on the Highway. Details of this procedure can be found via the following link: <https://www.hants.gov.uk/transport/parking/droppedkerbs>.

It is important to note that if there are any minor utility diversions that are required to facilitate the dropped kerb then additional costs may arise in addition to the initial application fee. The applicant should also be aware that once the existing access is closed a full height kerb should be reinstalled.

Having regard to the above, providing that the applicant applies for the drop kerb in the appropriate manner, the Highway Authority are satisfied that the above planning permission will not result in a detrimental impact on the local highway network, and therefore raise no objections towards this.
