Why you think permission should
or should not be given

Demolishing this historic building on a key route into and out of the village would be a significant loss. The building is also adjacent to the historic St James' Church and backs onto part of the church ground frequently used for weddings and other church events

This appears to be a speculative planning submission where insufficient effort has been made to refurbish the existing building. There are also significant issues with the increased size of the new premises with no allowance for the extra cars this would bring in an area already struggling for parking in the evening due to the concentration of take aways, and restaurants. Any expansion of the current site without consideration to parking should be rejected.

I would suggest this building be considered for listing building status before further speculative planning submissions are made.
