Subject: RE: APP/15/01235 Land adjacent Woodcroft Primary school, Woodcroft Lane, Waterloooville, PO8 9QD

Hi Daphney,

Please see the comments from our Landscape Architect:

- The Infants pitch area has been specifically designed to be laid to grass and to be a suitable size for Infant and Foundation Years football and rounders.
- Other areas of the school grounds are designed, allocated and used for:-
 - o the new full sized Junior pitch;
 - o Soft informal play;
 - o Hard informal play;
 - o games courts (MUGAs multi use games areas) (40 sqm surplus);
 - o habitat area;
 - o operational surplus peripheral areas are allocated for landscaping.

As such the layout has been designed for and meets national guidance published for Primary schools. I trust this answers the question raised.

I believe my colleague Lee Thomas has answered your other question related to S106.

Regards,

Owen Devine
