

The applicant is relying on the limited waiting bays in Eastern Road for visitors to the development. As these bays are heavily utilised around school outmuster, parking may be an issue for visitors to the development during these times. As the development is in close proximity to the footbridge over the railway (leading to and from Third Avenue and the residential roads beyond), it is felt that visitors to the development may park in these roads. This is considered to be sufficient cause for the traffic team to request that provision is made to allow a Traffic Regulation Order (TRO) to be processed on the nearby road network at some future date.

With regards,

Andy Pledge
