7 Planning Considerations

- 7.1 This notice of intent to undertake work to a tree located within a designated Conservation Area relates to the proposed felling of one Sycamore.

The tree is set back off King Street towards the rear of the property and adjacent to one of the driveways. A boundary wall follows the driveway and it is also adjacent to a

public footpath. The tree sits in the raised bed and appeared to be self seeded. A number of trees of varying condition and species forms this boundary.

The applicant wishes to remove the tree as it is now causing significant damage to the wall, it is bowing and likely to fail at some point. The Sycamore's root ball is intertwined with an Ash (which is subject to a separate section 211 notice).

The Sycamore is a suppressed, drawn up specimen of poor quality. As there are a number of trees along this boundary its removal will not be detrimental to the character or appearance of the conservation area, and more importantly, it cannot be retained or it will cause further damage to the wall.

No objections to the notice of intent have been received.

8 Conclusion

Due to its poor form, inappropriate location and its limited long term retention due to the visible damage to the wall the tree is not a suitable specimen to be made the subject of a TPO therefore no objection should be raised to its removal.

9 RECOMMENDATION:

That the Head of Neighbourhood Support be authorised to **RAISE NO OBJECTION** for application APP/21/00283
