Application to Connect to the Public Sewerage System - Section 106 Water Industry Act 1991

Location: B8 Warehouse, Plot 2, Dunsbury Hill Farm, Hampshire, PO9 4EF.

Dear Mr. Bliss,

Further to your recent application to connect to the public sewerage system at the above location, I am pleased to inform you that your proposal to connect to the foul sewers via an oblique saddle has been approved.

- Please note, surface water must not communicate with the public foul sewers.

If there is any change in the approved connection point, as above, you must provide us with your revised drawing and obtain our approval for the revision prior to the connection being made.

Please contact Andy Gayle our Assistant Project Manager for this area on 07780 493920 giving at least 2 full working days notice, in order for a mutually convenient date and time for the inspection of the works to be arranged.

Please note that between the dates of 21st to 31st December 2015 there will be limited cover. Therefore if you are planning the work between this period you should contact the person above to confirm the availability for inspection by the 18th December.

If connection is to be made through the lands of another, the works may not proceed until the landowners consent has been obtained.

In approving this application it is assumed that you have obtained any necessary Building Regulations Approval and /or Highway Authority Road Opening License.

Yours sincerely,

A handwritten signature in black ink, appearing to read "David Akehurst".
