Observations / Comments:

Good afternoon Daphney,

I have been asked to comment on this application. I have looked at the documentation provided by the applicant but could not find any information relating to traffic noise and mitigation measures to ensure the future resident will not be negatively affected by the road traffic noise.

Milton road is a very busy road within the borough which has mixed vehicle using the road and side roads which will affect the potential residents.

I would require further information relating to noise mitigations measures to provide you with a proper comment.

However, informative relating to bonfires, noisy working activity timing, bust control should be added to any consent you may grant.

I wait to receive further information relating to noise mitigation for the proposed.

I hope this helps

kind regards

Laurent
