Ashdowne handcrafted clay plain tile

Premium handcrafted look for the ultimate finish

Advantages

[Full product](#)

The premium traditional handcrafted finish provides quality and a unique heritage finish

The mellow appearance and granular texture provide slight random irregularities giving each tile a unique character making each project truly singular and distinctive

A range of 2 colours available for design flexibility

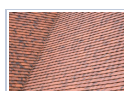

A 'Very Good' certification for BES 6001 (all clay plain tiles)

Excellent environmental credentials including BES: 6001 and BR Green Guide A+

A range of complementary fittings and accessories

Ashdowne handcrafted **clay tiles** are available in two weathered colours making them the ideal choice in a refurbishment project or to enhance the beauty of a new build development and complement the surrounding area.

The traditional handcrafted finish ensures each and every project takes on a beauty and character of its own, no two handcrafted roofs are ever alike.

For extra versatility why not consider combining and mixing the colour range to add extra warmth and texture to your project.

Accreditation to the BES 6001 framework standard for 'Responsible Sourcing' means that projects using our clay tiles can now achieve extra credits under BREEAM and The Code for Sustainable Homes. [Click here to find out more.](#)
