Comments

Condition 4 makes specific reference to a requirement for a Landscape Mitigation Plan providing mitigation for the trees to be removed, together with a soft landscaping scheme.

Whilst there is no adverse comment regarding the extensive length of proposed *Prunus luisitanica*, a lack of any proposed tree planting is noted. There is scope for at least one replacement to be planted to the western side of the gravel drive either a single Pine specimen, or a multi-stem Birch would be deemed appropriate.

Kind Regards
