

Proposed Demolition of Building V, 32 New Lane, Havant, PO9 2NG

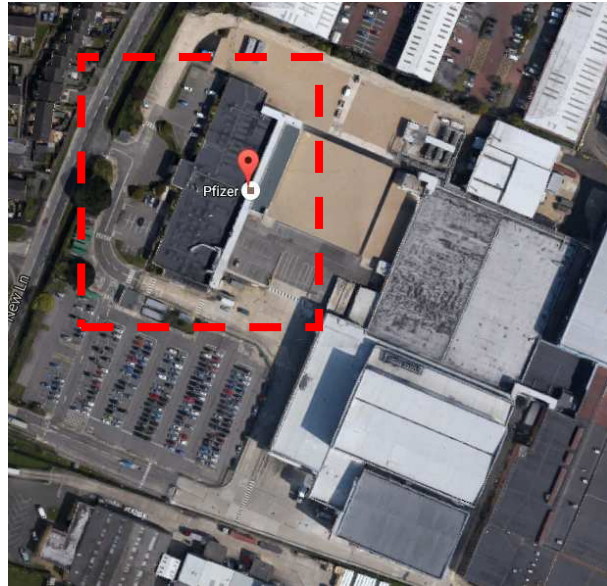

Planning Statement

Building V is located at the main entrance to the site, running parallel with New Lane. It currently consists of office space, toilet and refreshment facilities.

The demolition is part of an ongoing site consolidation exercise and will involve the complete building demolition including slab removal.

Demolition will be in the form of a systematic removal of the structure whilst keeping dust levels to a minimum. This will be undertaken by excavators and concrete nibblers.

The restoration of the site will involve the application of a DPM root barrier and gravel top surface to match adjacent landscaping. Further soft landscaping can be undertaken if required.

View of main entrance from New Lane
