Subject: RE: Planning Application APP/14/00863 Land north of Bartons Road, Havant

Dear planning

We have reviewed the above consultation and note that this application was previously determined in 2014 and we have not previously seen this application in relation to surface water drainage. General principles in relation to discharge rates have already been provided during determination of this application. We therefore have no comments to make on the discharge of this condition.

We note that the proposals involves a connection to the River Lavant, this is designated as main river, consent may be required to make a connection into this watercourse and we would recommend that the applicant contacts the Environment Agency to determine if this is the case

FWM Team
