As I now understand this is a temporary application it does not require a contribution and I am happy with a condition that a travel plan should be provided

The application should have an additional 14 spaces based on standard parking for a new industrial building. I require a travel statement explaining the modes of travel to the site and thereby a justification that the amount of parking of vehicles and cycles on site is adequate.

If this application is determined before 1 August then a highway contribution of $230 \times 424/100 = \text{£}975$ will be required
