Subject: Base Station, Land opposite to 124, Stakes Road, Waterlooville APP/14/00224

Good afternoon Tina,

I have read the documents sent by the applicant but I could not find anything relating to noise from the 4 cabinets. I am concerned that some buzzing, electrical noise may be heard at nearby residents properties, but the applicant has not addressed the issue.

Would it be possible to have the applicant to submit some acoustic measurement/survey for the proposed site, to ensure that local noise climate will not be affected by the noises from the units. It may be that some acoustical mitigations measures are included within the cabinets, but at the moment I could not really comment or certainly comment adequately.

I hope this helps

Kind regards
laurent
