

Dear Mrs Haywood,

APP/16/00963 The Clock House and 81c London Road, Waterlooville: Redevelopment to provide 30No.new flats (19No. 1 bed and 11No. 2 bed flats) comprising demolition of 81C London Road and construction of 1No. three storey block to the front with commercial unit on the ground floor and 1No. three storey residential block to the rear together with the addition of a third floor roof extension to the principal frontage building; conversion of commercial space at first floor to residential; with associated minor alterations, car and cycle parking, refuse storage facilities and landscaping

Thank you for your consultation. The site is located close to the historic core of Waterlooville in an area that was populated by prehistoric field systems and settlement prior to the urbanization of the area in the early 20th century. If archaeological features did survive in this area they would however have been heavily truncated by a series of buildings that appear to have been constructed within the site. As a result I would advise that the potential of the site is very low and that I would not wish to raise any archaeological issues in this instance.

Yours sincerely,

**Neil J. Adam BA ACIfA
Senior Archaeologist**
