1.0 Introduction

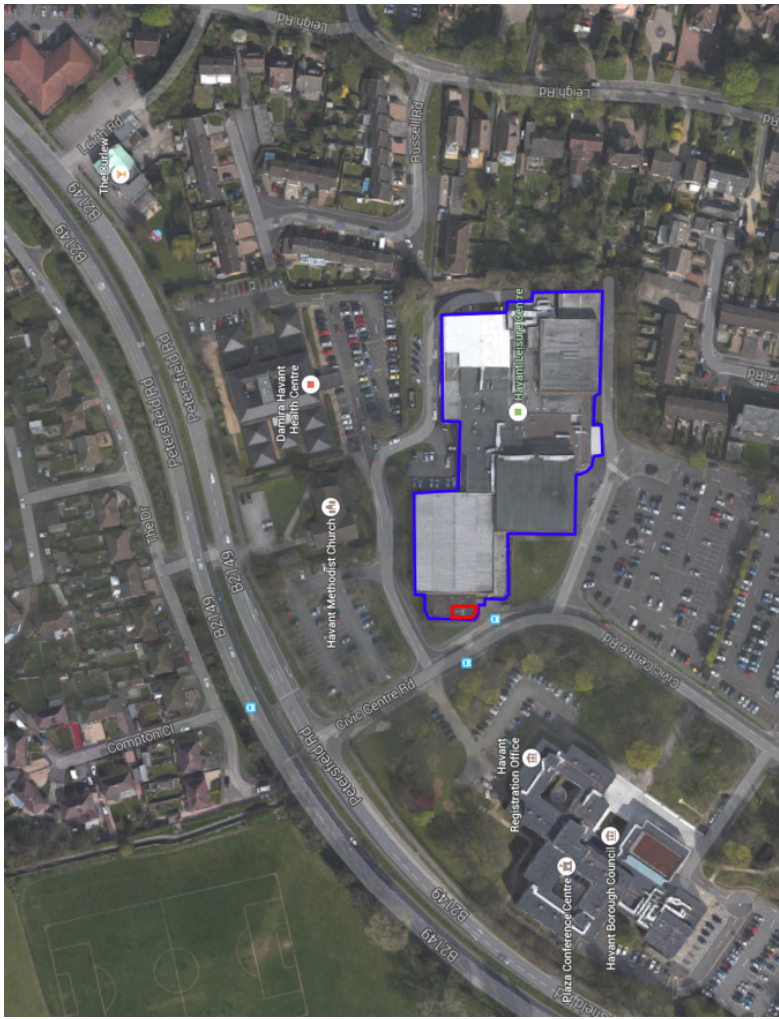

The planning application has been put together by PDP Architecture on behalf of Horizon Leisure Centre, and should be read in conjunction with all drawings.

1.1 The Proposal

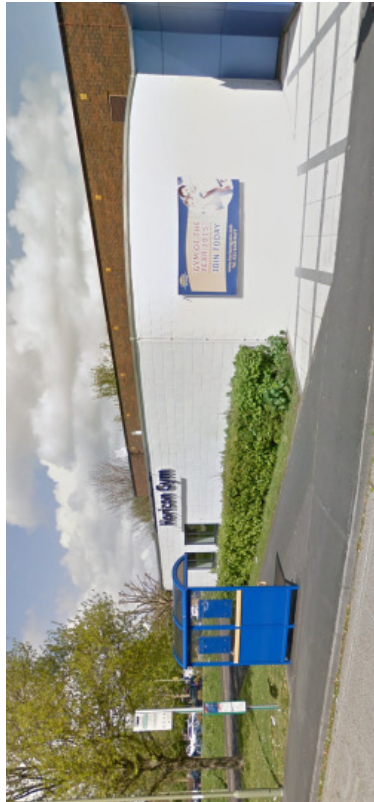

The proposed works are to add 2 new external windows to an existing blockwork wall elevation, located near the gym entrance. The gym is currently looking at providing a wellbeing area within the existing gym, making use of unused space. The windows will provide the new area with natural light and ventilation.

1.2 Location

The site for the 2 new windows is at Havant Leisure Centre (Horizon Gyms), Civic Centre Rd, Havant, PO9 2AY.

2.0 Proposed Works

2.1

The two proposed windows are to provide the new wellbeing area of the existing gym with additional light and ventilation. The proposed windows will be operable to allow for sufficient air flow.

2.2

The style of the windows are to match the existing windows on the same elevation. These are double glazed, grey powder coated Aluminium frames.

2.3

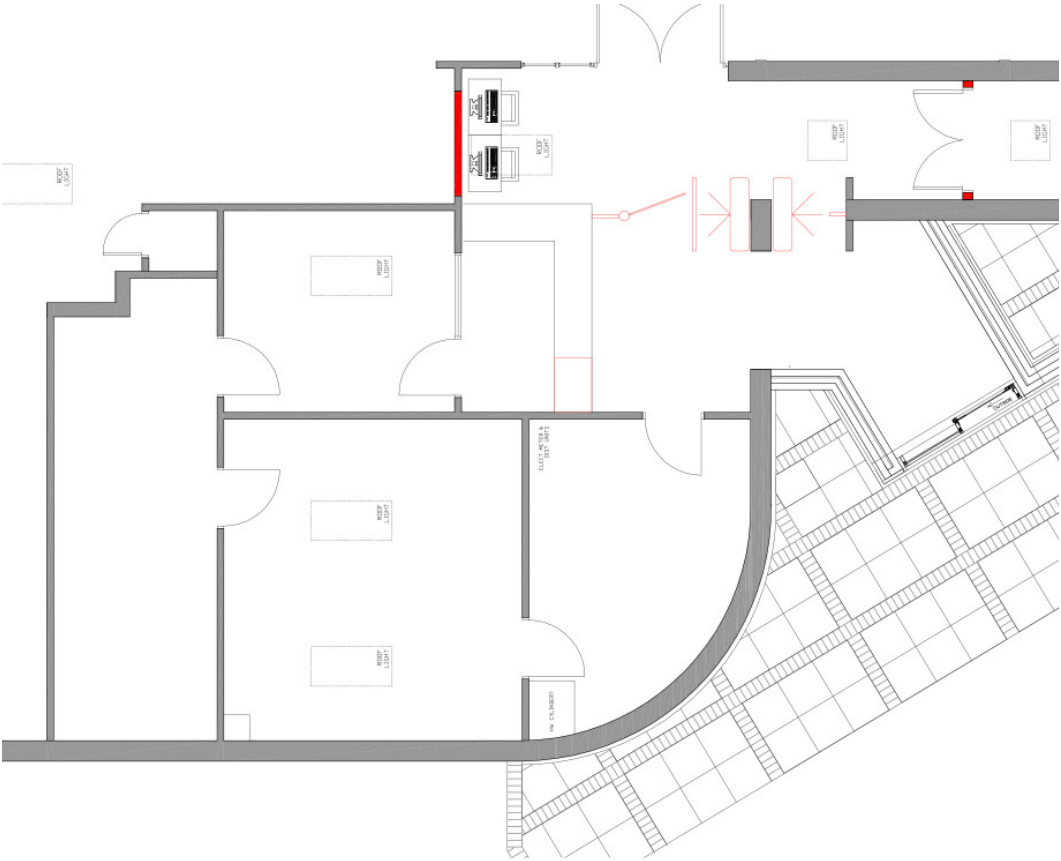

The addition of the two windows does not affect any surrounding properties right to light.
