

Subject: RE: 13 Wait End Road, Waterloooville, PO7 7DD APP/15/01202

The three units will require 6 spaces the report says that each property has a parking space ie three but the block plan only shows 2 but perhaps there is a garage. The use of the three spaces would require close cooperation of the three properties. I suggest that in order to access the impact of this proposal on the amenity of the area and the safety of users of the highway we ask for a parking survey of Wait end road.. I would suggest an hourly survey plotted on a plan from 19.00 to 24..00 on four consecutive day Thursday, Friday, Saturday and Sunday.
