You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

- ~~1. Poplar - Remove to ground level~~
2. Macrocarpa - Remove to ground level
3. Holm Oak - Reduce north east sector only to give 2m clearance to building
4. Holm Oak - Reduce north and west sectors by 2m
5. Holm Oak - Reduce north sector by 2m. 10% Thin east sector. Crown lift to 2.5m
