7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

(i) Whether the development would require planning permission

7.2 The proposal has been assessed against the 'permitted development' allowances in The Town and Country Planning (General Permitted Development) (England) Order 2015.

7.3 The development has been assessed against Part 1 Class A.

7.4 Under Class A the proposed single storey rear extension meets the following tests:

(a) Permission to use the dwellinghouse as a dwellinghouse has not been granted only by virtue of Class M, N, P or Q of Part 3 of the Town and Country Planning (General Permitted Development) (England) Order 2015 (changes of use) (b)

The extension will not result in over 50% of the total area of the curtilage being covered by buildings (excluding the original dwellinghouse)

(c) The height of the extension will not exceed the highest part of the roof of the existing dwellinghouse

(d) The height of the eaves of the extension will not exceed the highest part of the eaves of the existing dwellinghouse

(e) The extension will not extend beyond a wall which forms either the principle elevation of the original dwellinghouse or fronts a highway and forms a side elevation of the original dwellinghouse

- (f) The extension will have a single storey and will not extend more than 4m from the rear wall of the existing dwellinghouse, nor will it exceed 4m in height
- (g) Not relevant in this application as within permitted development limits
- (h) Not relevant in this application as the extension is single storey
- (i) Although the extension will be within 2m of the boundary of the curtilage, the eaves height will not exceed 3m
- (j) Not relevant in this application as will be located to the rear of the dwelling
- (k) The proposal does not include the construction or provision of a veranda, balcony or raised platform; it does not include the installation, alteration or replacement of a microwave antenna; it does not include the installation, alteration or replacement of a chimney, flue or soil and vent pipe, or the alteration to any part of the roof of the dwellinghouse

7.5 A3 - The plans submitted demonstrate that the conditions in A3 would be met.

7.6 A search of the planning history has not revealed conditions that restrict 'permitted development' rights, nor is the dwelling part of an Article 4 direction.

8 Conclusion

The proposed development falls within permitted development regulations as set out in Schedule 2, Part 1, Class A of the Town and Country Planning (General Permitted Development) Order 2015 so therefore I would recommend that this proposal would not require planning permission.
