Recommendation: **GRANT PERMISSION**

1 Site Description

- 1.1 6 Oyster Close, Hayling Island, PO11 9FP is a new dwelling located within the south eastern corner of The Halyards housing development. The site is still under construction but the dwellings within this section of the site are complete and occupied.
- 1.2 To the eastern boundary of the site is an open field and beyond the Chichester Harbour AONB.

2 Planning History

Permitted development rights were removed when the housing development was granted consent under APP/12/00966 (outline) and APP/14/00488 (reserved matters).

3 Proposal

Erection of 2No. summerhouses in rear garden and raising of land to rear boundary.

Number of representations received: 0

7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- (i) Principle of development
- (ii) Impact upon the streetscene and AONB
- (iii) Impact upon residential amenity
- (iv) Impact on ecology

(i) Principle of development

7.2 The application site is situated within an urban area where further development is considered acceptable subject to the usual development control criteria.

(ii) Impact upon the streetscene

7.3 The proposal is located within the rear garden of the property and is not readily visible from Oyster Close. It is largely screened by the boundary hedge to the rear and will not have any great impact on the adjacent AONB due to the small scale nature of the development.

(iii) Impact upon residential amenity

7.4 It is not considered that the development, consisting of the erection of two summer houses and the raising of land to the rear will have sufficient detrimental impact on the amenities of the occupiers of the adjacent residential dwellings to warrant a refusal of this application. The land slopes down from the dwelling house to the rear boundary and therefore the increase in the level of the land will not cause issues of overlooking.

(iv) Impact on ecology

7.5 The application subject of this report was submitted at a similar time to two other applications for development within the rear gardens of Oyster Close. The County Ecologist was consulted with regard to these applications, as the boundary treatment to the rear of these dwellings was required to be a open chain link fence to allow hedge planting to grow and thicken the existing hedge. After consideration it is concluded that the development hereby proposed does not impact the intentions of this requirement and will still allow some good degree of hedge to grow and thicken.

8 Conclusion

- 8.1 It is considered that the development is acceptable and meets the requirements of policies CS16 and CS11 of the Local Plan Core Strategy.

9 RECOMMENDATION:
