Hi Daphney

There are no mature trees lost as part of this application. The hedgerow at the front of the site will be removed and replanted using a diverse range of native hedgerow species and trees to replace the current defunct species-poor hedgerow. Where possible hawthorn and young standard trees within the current hedgerow will be retained and translocated.

There is further detail on the planting etc within the ecology report which I will send across to you before the end of the day (apologies for the delay on this but we had a few tweaks to make after meeting Tristan on site last week).

Thanks
James

Hi James

I met with Jamie(trees) toady and he has requested that we have detail of the trees/hedging to be lost (adj the car park- mainly interested in loss of trees, plus any other tree loss)

Also he has requested some oak planting – I am awaiting his confirmation of the percent required and will get back to you when I have this,

Best regards
