Subject: RE: Planning Application APP/16/00950 Stoke Fruit Farm, 77 Havant Road, Hayling Island, PO11 0PT (site ref 61929)

Dear Mrs Haywood,

I can confirm that the proposed replacement structure would be galvanised steel, as per the information in the supplementary information document. This is as per the existing structure.

I will pass on the comments of the landscape architect regarding the fencing to my client. Our application does not include the replacement of or alteration to the compound fencing. We have sought prior approval only for replacement of the monopole and apparatus supported thereon. This being the case, any other works found to be necessary would presumably have to be dealt with as a separate matter.

I trust this fully answers your queries.

The above notwithstanding, are you able to advise at this stage in the process what your recommendation might be?

Kind regards,

Juliet
