Planning Application APP/15/01355**

Thank you for your letter of 8th March.

Having looked at the amended plans it looks as though the property has hardly been reduced in size at all. These amendments will hardly make any difference and the proposed house will still look large, bulky and out of place for its setting.

I really feel that the spot would be better suited to a bungalow (which is currently there) or a much smaller house with softer lines.

Yours faithfully
