5. What Are You Applying For?

Are you seeking consent for works to a tree(s) subject to a TPO?

☒ Yes☐ No

Are you wishing to carry out works to tree(s) in a conservation area?

☐ Yes☒ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

TPO 1092

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

T1 - Ash - sited on boundary with 3 Beeches Nursing Home. Aprox 9m in height, forks at 0.5m. Main stem aprox 40cm DBH, second fork aprox 25cm DBH. Damage to bark & bleeding on main stem (see photos). Canopy is declining. Fell due to health & safety concerns. Stem is likely to re-coppice.
Area hatched blue. Aprox 0.13 ha. Mixed broadleaves comprising ash, willow, birch, hawthorn & oak. Coppice area and manage on a 15-20 year coppice regime.
The adjacent houses are suffering regular flooding. By coppicing the trees (which are natural regeneration of poor quality) a small excavator can access the area to dig a series of small ponds/scrapes. This will help hold back some water and alleviate the flooding issues. The trees will naturally regenerate coppice stems which will be cut on a 15-20 year rotation preventing them from becoming safety issues in the future.
This work will also increase the biodiversity of Park Wood.

8. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:

If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

☒ Yes ☐ No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives.

If YES, you are required to provide for:

☐ Yes ☒ No

Subsidence

A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

Other structural damage (e.g. drains, walls and hard surfaces)

Written technical evidence from an appropriate expert, including description of damage and possible solutions.

Documents and plans (for any tree)

Are you providing additional information in support of your application?

☒ Yes ☐ No

If Yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application:
