Dear Mr Eaves,

Outline application for residential development (175 dwellings) with associated infrastructure. at Land South of Bartons Road, Havant

Thank you for consulting again on this application. Hampshire County Council (HCC) as the minerals and waste planning authority (MPWA) for Havant Borough have reviewed the submitted minerals safeguarded report dated 28th April, 2016.

HCC requested an investigation to be undertaken in accordance with **Policy 15: Safeguarding: mineral resources** of the adopted Hampshire Minerals and Waste Plan (2013) and national planning policy to determine the existence of viable minerals beneath the development proposal site boundary. This investigation was requested as a result of the proposed development boundary overlying the Minerals and Waste Consultation Area (MWCA). The MWCA is informed by data provided by the British Geological Survey.

The submitted report contained sufficient primary data as a result of geological exploratory investigation to demonstrate that sterilisation of potential economic mineral reserves would not occur and that **Policy 15: Safeguarding – mineral resources** can be satisfied.

HCC as the MWPA for Havant Borough require no further information to be submitted in relation to minerals and waste planning policy and have no objection to the planning application.

Director of Economy, Transport and Environment
Stuart Jarvis BSc DipTP FCIHT MRTPI

Thank you for providing the information as requested.

Yours sincerely,

A handwritten signature in dark ink, appearing to read "Ilinat." with a small dot at the end.

Ilinat Todorovska
