Subject: APP/15/01233

Mipa Paints Ltd is a sales and distribution company only. All paint, and associated products, are manufactured off-site. Primarily by our German parent company, Mipa SE and a number of UK suppliers..

All our products are stored in closed containers and we distribute these across the UK and Ireland. We have a paint mixing room and a training facility. These are used primarily for product testing and training, and these areas have the correct level of filtration and extraction incorporated into their plant.

Mipa Paints Ltd has been located in Applied House, Fulflood Road, Leigh Park, since 2004 and have never received a complaint due smell or emissions. We have no plans to change our services or how we operate our business.

As stated we have been in Fulflood Road since 2004. Our business is to distribute paint products not to manufacture paint products.

If further clarification is required please contact me and I will co-operate in any way that I can.

Kind regards

Pete Keniston

Logistics and Warehouse Manager
