VINTAGE COLLECTION

With far greater detail than our Classic, Authentic or Heritage collections, Vintage is in a league of its own. Designed for more discerning clients who appreciate authentic detailing, like chamfered sashes and staff bead options for both inside and outside frames.

Deep bottom rail, run through horns and white foil make this an excellent choice for planners and conservation areas. The Vintage Traditional option is available with traditional butt joints with or without horns.

◀ Dedicated to making only sash windows, our constant innovation keeps us ahead. ▶

SPECIFICATION

Designed for discerning clients who appreciate authentic detailing, our Vintage Collection is an outstanding sash window. Using heavy duty balances like Torso and robust cam catches for maximum security and reliability, more durable components inevitably adds cost but make our Vintage Collection excellent value.
