Daphney,

I can confirm,

I have amended my paragraph,

Peter are you happy with the below?

The Highway Authority advise that due to complex nature of the highway works with the additional matter of Havant Road being a traffic sensitive route, the details in regards to drainage may be subject to modifications. As such it is considered that these site access works will be facilitated by way of a Section 278 Licence, contact should be made to the Highway Authority to progress the works.

Regards

Robert Neave
