

**Application APP/12/00338 Dunsbury Hill Farm, Park Lane, Cowplain,
Waterlooville, Discharge of condition 16**

Thank you for your recent consultation. I must confess that I am not quite clear on the nature of this consultation, but I have assumed that it is with regard to the discharge of Condition 16, the archaeological condition.

The archaeological condition appears to be being applied with each phase of development and not as an over arching exercise, and so far we have only seen the archaeological results for the Access road and for Plot 2. In both cases I am happy to confirm that I would not raise any archaeological objection to the partial discharge of the archaeological condition in so far as that relates to the access road and to Plot 2.

The archaeological condition secures within the site some evaluation of a crop mark which might reveal a hitherto previously unknown Iron Age defensive settlement. The condition therefore continues to secure an important archaeological consideration and should not be discharged in its entirety.

Yours sincerely

David Hopkins
County Archaeologist
