Comment Reasons:

Comment:A vast amount of trees were cut down and removed by Blendworth Trees over a bank holiday weekend during 2015, most of these trees had to be at least 60-70 ft in height, these trees would have soaked up a lot of the residue water that tends to run down the sloping land, was permission required to remove these trees.

I am sure that various neighbours will have pictures with these trees in view.

I am sure that numerous people would like to see the type of Rainwater/main drains etc required to remove surplus water that land will and has been exposed to during the 'RAINY WINTERS'
