Hi Daphney,

Yes, I agree. I think we are very nearly there anyway.

I'll take a look today at the details James emailed through.

Regards,

Tristan

Did you know that HCC now offer an Environmental Data and Advice Service (EDAS)? It's a new service for developers and investors, providing a combined feasibility assessment across a number of environmental disciplines, for any site in Hampshire. For more information please go to <http://www3.hants.gov.uk/sharedexpertise> or contact us at edas@hants.gov.uk.

Please consider the environment before printing this email.

Hi Tristan

Sounds reasonable to me – is that ok with you.

Best Regards

Hi Daphney

I had a thought last night around the lighting / impact on bats - we already have pre-commencement Condition A18 which requires us to submit and the LPA to agree in writing bat mitigation measures - so would this cover the lighting? Bat foraging routes are mentioned in the wording of this condition.

So effectively even with a RM permission in place we couldn't start work until we had discharged A18, which could include the lighting issue?

Thanks

James
