Description

A hand-cut riven Indian sandstone, Raj blend is one of the most eye-catching products in the Stone Traders range. Raj blend sandstone features shades of green and brown, accentuated by the occasional swirl of yellow, giving the appearance of a highly-coveted traditional York stone.

With a rough, textured feel and varying thickness, this rustic and hardwearing stone is an attractive option for homeowners looking to create attractive patio areas and pathways. Owing to its natural, earthy tones, Raj blend would look particularly at home in an outdoor space with an abundance of greenery – whether in a rural or urban setting.

Raj Indian sandstone paving slabs are as its name suggests, mined in the Rajasthan area, in the North West of India. As with all Stone Traders' sandstone, it is ethically sourced by hand, ensuring the highest quality for our customers.
