Subject: App/15/01389 - ASDA waterlooville

Hi Karen

I've read the 'Environmental noise survey report & noise impact assessment for fixed plant' submitted by ACP for the above application and can advise that the report indicates that the impact on the nearest sensitive receptors will be significantly less than low impact.

As such I am satisfied that the applicant has shown that the new plant installation should not impact in terms of noise on nearby residential properties.

Kind regards
