Subject: APP/15/01175: Swiss Cottage, 9 - 11 St Georges Walk, Waterlooville - approval of details

Richard,

The photographic record (condition 3) is OK and probably unnecessarily detailed in some respects. What it lacks is a wider view of the building in the street scene, which provides a context. I took some photos at the time the application was under consideration which I feel will adequately address this – see attached. Rather than requesting the applicant to provide photos we already have, I would be content to discharge the condition if these additional external shots are added to the record file.

Regards..
