Subject: APP/15/00849: 39 Park Way, Havant FAO Mrs Sally Smith

Dear Mrs Smith,

APP/15/00849: 39 Park Way, Havant: Change of use (of part of dwelling) from offices to 4No 1 bed flats

Thank you for your consultation. The site is located to the north west of the historic core of Havant and 60 metres to the north of the former Roman road that ran between Chichester and Bitterne. Evidence of Roman settlement was recorded to the south of this road during archaeological investigations at 59-61 West Street in 2014. However, although the site has some archaeological potential it appears that the proposed development will involve very slight ground working episodes which would be unlikely to expose meaningful archaeological features and/or deposits. On the basis of this, I would not wish to raise an archaeological issue in this instance.

Yours sincerely,

Neil J. Adam BA ACIfA
