

EXTERNAL FACING MATERIALS

Three options—all facing to be installed horizontally including option for a full wrap

1 Tongue and groove external timber cladding treated and then finished in Willow tree or Pixie Green. Supplied by Trade Point. www.TradePoint.co.uk. See samples supplied

2 Fibre cement with a natural appearance supplied by the James Hardie using a product called HardiePlank – again available in an extensive range of colours and choice of textures but the likely finished would be in Willow or Pixie Green. See sample supplied

www.jameshardie.co.uk/

3 Kingspan. A Steel based cladding material painted as required, to replicate tongue and groove finish.
