Subject: RE: APP/15/01233 Mipa Paints - Arboricultural Statement

Heather

In respect of the above application I have the following comments:

No tree removal is required to facilitate this project. The supporting arboricultural evidence is comprehensive and provided that the methodology prescribed in this MS & TPP report is strictly adhered to (inclusive of site monitoring works) the Oak tree will survive the development unscathed and to continue to grow on safely and healthily in the future.

However I would require details of the proposed construction of the refuse store and palette store to ensure that they are built to an 'Arb friendly' standard and will not impact negatively on the trees (It will be within the RPA off the Alders)

Therefore I have no objections to this scheme in arboricultural terms.

Thanks
J

BST – please could you index the attached arb statement to Idox as public and make the application valid from today's date. Can you email me the new expiry date – no need for any new publicity

Jamie – Please could you have a look through and provide consultation comments on the scheme

Many thanks

Heather

Heather,

Please find attached the Arboricultural Statement as requested for the above application.

I understand there has been dialogue between our transport consultant and your highways team regarding that matter. Providing both these issues are in order, our client has asked if you could give any indication as to a likely decision date.

If you have any queries, please do not hesitate to contact me.

Regards,

Michael Saunders – Architect & Partner
