Subject: APP/15/01408: 10A-12 East Street, Havant FAO Mrs R McMurray

Dear Mrs McMurray,

APP/15/01408: 10A-12 East Street, Havant: Change of use at ground floor level from A1 to C3 to form 3No. flats, with associated alterations to front and rear elevations

Thank you for your consultation. The site is located in an Area of High Archaeological Potential (AHAP) in the heart of what was Roman Havant, close to the junction of the Roman roads between Chichester and Bitterne and between Rowlands Castle and Havant. However, the development will involve little in the way of significant ground penetration and these works are very unlikely to expose any interpretable archaeological features. As a result I would not wish to raise any archaeological issues in this instance.

Yours sincerely,

Neil J. Adam BA ACIfA
