

Cesar

Cesar's simple, cylindrical style, available in four sizes, offers a choice of adjustable light sources and superior highlighting

- By day, Cesar adds to the style and ambience of its surroundings, It has a modernistic, cylindrical design that is particularly well-suited to the high tech theme of today's architectural developments.
- By night, Cesar comes into its own, adding safety, security and a new aesthetic dimension to its context. It can emphasise with drama or subtlety, the features of fine architecture
- Stainless steel screws promote additional resistance and easy maintenance.
- IP65 protection
- Range of lamp types, lenses and wattages optimise light output and save energy.
- Delivered with integral gear.
- Safe and simple installation using a single tool.
- Automatic connection reduces installation time and cost
- Double lamp versions available with independent electric circuits (size 3 and 4) provide energy savings and help to control obtrusive light.
- Adjustable lamp positioning (except for TC-TEL models) enhances versatility
- Semi-intensive reflectors combine excellent photometric performance with choice of beam angles, for creative effects.
- Colour effects can be created using colour filters or LED's (size 1 only)
- Frosted glass also available

Photographs, line drawings and photometric data are representative only. For specific product detail please select an individual product.
