APP/15/00950 108-110 Elm Grove Hayling Island

Sally

From an over view of the Barrell plan/survey I raise no objection to the removal of the trees (Cat C and U) as they should not be a constraint to development due to their BS 5837:2012 classification status.

I would however like to see a comprehensive tree planting plan conditioned (or presented up front) to mitigate for the proposed tree loss on the site.

Thanks
J
