Observations / Comments:

I have read through the acoustics report submitted with this application and can advise as follows:

I would recommend a holding objection to the discharge of this condition until such time as the acoustic consultant and the developer / contractor can confirm that what is being recommended and /or assumed / expected, is in fact going to be put into place to ensure the standards stipulated in the condition will actually be met.

If you have any queries in relation to the above , please do not hesitate to contact me.
