Subject: Royal Oak privy

Dear David

Following on from the conservation officer's letter. Could the age of the privy in the garden be revisited.

A builder with conservation knowledge has had a look at the brick work. It is a mixture of Flemish, Old English bond and English bond. The mortar is lime. He estimates that the building could originate from about 1820.

Could I therefore please request that the building is listed and retained.

Thank you

Kind regards
Sadie Snowdon
