THE CODE FOR SUSTAINABLE HOMES

FINAL CERTIFICATE

(Issued at the Post Construction Stage)

Certificate Number: STRO001335-PC-20156242630508

Score: 59

What Your Code Star Rating Means

Combined Score	36-47	48-56	57-67	68-83	84-89	90-100
Stars	1	2	3	4	5	6

The Code for Sustainable Homes considers the effects on the environment caused by the development and occupation of a home. To achieve a star rating a home must perform better than a new home built to minimum legal standards, and much better than an average existing home.

How this home scored												
Category		Percentage of Category Score attained										What is covered in the category
		0	10	20	30	40	50	60	70	80	90	
Energy	53											Energy Efficiency and CO2 Saving measures.
Water	67											Internal & external water saving measures.
Materials	46											The sourcing & environmental impact of materials used to build the home.
Surface Water Run-off	100											Measures to reduce the risk of flooding and surface water run-off, which can pollute rivers.
Waste	62											Storage for recyclable waste & compost. Care taken to reduce, reuse/recycle construction materials.
Pollution	50											The use of insulation materials and heating systems that do not add to global warming.
Health & Wellbeing	92											Provision of good daylight quality, sound insulation, private space, accessibility and adaptability.
Management	33											A Home User Guide, designing in security, and reducing the impact of construction.
Ecology	56											Protection and enhancement of the ecology of the area and efficient use of building land.

Further detailed information regarding The Code for Sustainable Homes can be found at:
www.gov.uk/government/publications/code-for-sustainable-homes-technical-guidance

The CO₂ rating is a measure of a home's Carbon Dioxide (CO₂) emissions. This rating is shown on your Energy Performance Certificate as the Environmental Impact Rating. This Certificate is available from the seller, and also includes information on how you can improve the home's performance.

The Code measures the sustainability of a home as a complete package, and takes into account other aspects of energy use as well as wider sustainability issues, such as water and waste.

The CO₂/Environmental Impact Rating is shown here for information only and does not form part of The Code for Sustainable Homes. Neither Stroma Certification nor the assessment organisation is responsible for the accuracy of this number.

This certificate remains the property of STROMA Certification Ltd and is issued subject to terms and conditions. It is produced from data supplied by the licensed Code Assessor (a "certified" competent person under Scheme Document SD123). To check the authenticity of this certificate, please contact STROMA Certification Ltd.
