Subject: RE: APP/15/00865 2 New Road- Consultation Response

Good morning Emma,

Thank you for contacting me about this application.

Assuming that the new connecting extension is for the same use class, I would have no objections.

However, as before, the applicant should be made aware that at no time this new extension, together with existing can be used for or changed to residential use, this due to the close proximity of the train tracks.

The other informative relating to noise and vibration (which may affect equipment and machinery) can be re-inserted for their information.

I have cc'ed Jon as he did comment on the contaminated land and may wish to comment further on this new application

I hope this helps
Kind regards

Laurent

Kind regards

Laurent
