

Hi Heather,

Following our meeting this afternoon, I wish to confirm that Moods Fitness Studio,(the premises was formerly known as Green Baize Snooker club) has been owned by my father, Ronald Wiltshire for 33 years and during these 33 years it has been opened late until 00.30 and for the 25 years in which it was trading as a snooker club it also had a late supper licence so we opened until 2am daily (except for Sundays). Therefore historically its planning permission permitted late opening times (the latest opening times in Havant) and even in the past 5 years it has been opened until 00.30 am for member's functions on a Friday and Saturday night which helps subsidise the fitness business, this is why it has come as a surprise to my father and I that our former tenants, Paul and Teresa Moody never had the planning permission to stay open after 9.30 although their licence which is the same as our drinks licence stipulated closing time was 00.30.

As I also mentioned that its our intention to separate women and men in the gym as this seems preferable to our women customers which will mean we will have set hours for women and men and as I've noticed in David Lloyd in Port Solent (which closes at 11pm) it is normally the men who prefer to use the gym later in the evening so we intend to set the women's gym hours until 8ish and then allow the men to use the gym after until later.

Please contact me if you require any further information.

kind regards,

Karen Wiltshire
